BOATING

Please remember when boating or rafting on the Merced River:

- Tell family or friends where and when your river trip is to take place, including start and finish points.
- Currents in low flow periods are very slow. An hour of paddling may result in only 1 to 3 miles of travel, depending upon the water's depth.
- Wear life jackets at all times.
- Beware of dangerous currents.

NO LIFEGUARD SERVICE is available. Visitors may swim and fish in the river, but should be aware of deep holes beneath the surface and the steep and narrow banks along the river.
